

I am commenting regarding the Indiana Privacy Act and how it has really improved my home life. Previously, every evening at dinner time, the telephone would ring several times. Inevitably, it was one sales call after the next. Since I have registered with the state, my home life has greatly improved. We sit together as a family around the dinner table and talk with out the phone ringing 2-3 times in one hour. Please do not change the Act. It is really helping the residents of the state in achieving a higher quality of life for themselves and their families.
